

Enjoy the premier of an inspirational new choral and orchestral composition by **Sam Guarnaccia** in the cathedral-like Breeding Barn, with the magnificent painting series 'Endless Spring' by visual artist **Cameron Davis**. Celebrate through music and art the stunning story of our emerging Universe, inspired by the documentary film *Journey of the Universe* produced by Mary Evelyn Tucker and John Grim. The 90-minute Oratorio weaves music together with the spoken word, including recitatives by Vermont writers **Rebecca Gould** and **John Elder** of Middlebury College.
